## TENNIS CHAMPIONSHIPS.

(Union Associated Press.)  
NEW YORK, Feb. 25.—Play was  
commenced at 1:30 o'clock this after-  
noon by the contestants for the men's  
titles in the tenth annual indoor  
championship tournament of the  
United States National Lawn Tennis  
Association. The interest in the con-  
tests for the title in both doubles and  
singles is more acute than ever be-  
fore. A large number of tennis en-  
thusiasts from all over the country,  
attracted by the twenty-eighth annual  
meeting of the National Tennis Associa-  
tion as well as by the indoor cham-  
pionships, filled the Seventh Regiment  
Armory in Sixty-ninth street this  
afternoon. The tournament will be  
continued through all of next week.

There is a goodly sprinkling of col-  
legians among the number of men  
who will try for the honors held by  
Wylie C. Grant in the men's singles.  
G. C. Shafer and A. S. Moses form the  
leading men of the Columbia team,  
while Yale, Harvard and Princeton  
are to be represented by picked men.  
A departure will be made this year  
by the Seventh Regiment Club in plac-  
ing the tournament under the direc-  
tion of a manager as is done in Eng-  
land and the Continent. J. P. Allen  
having been appointed for the posi-

## Arizona and New Mexico.

Chicago Record Herald.  
Arizona and New Mexico, the last  
remaining territories in our estab-  
lished American sense, wait for  
admission to the Union as separate  
States. That they ought to come in  
together as one State is the belief of  
nearly all people who have studied  
the facts with care and without bias.  
That they will not consent to admis-  
sion together as a single State as long  
as they have hope of separate admis-  
sion is only too well established by  
recent history.

Given the admission of these two  
States, and the nation is doomed per-  
manently to the evils which will arise  
from the existence of a group of six  
or eight State in the Rocky Mountain  
and Great Desert region, all so far  
as one can forecast, bound to remain  
scanty in population, and hence, un-  
der our constitution, disproportionately  
strong in their influence upon the  
election of the presidency. In the up-  
per branch of the federal legislature  
and upon the adoption of amendments  
to the constitution itself. Such States  
are deliberately endowed by the na-  
tion, so far as it can endow them,  
with the characteristics of "rotten  
boroughs." They are a peril for the  
future, and will be infinitely hard to  
get rid of in the end if necessity  
arises.

WHAT SPARTAN STAIN IS GOOD  
FOR.

Interior woodwork it keeps bright;

YES--YOU

MORE  
CHEAPLY

ADVERTISE

If you were a merchant would-  
n't you rather sell a thousand  
yards of silk in a day, at a prof-  
it of 10c a yard, than to sell  
(without advertising) fifty yards,  
at a profit of 25 cents a yard?

Isn't it plain that in all such  
instances the buyer gets the ben-  
efit of the "volume of business"  
which advertising enables the  
merchant to do?

The money cost of a journey  
—long or short—by stage coach  
(not to count time, or comfort)  
was greater than that of a pres-  
ent dry journey by railway. The  
"old ways" of doing things were  
not even CHEAPER.

Th: cost of things in an old-  
fashioned store nowadays is  
greater than in the progressive  
stores—the advertised stores.  
It's not even CHEAPER to pat-  
ronize the non-progressive mer-  
chant—not to count the unwise-  
dom of helping make it possible  
for reactionary and non-pro-  
gressive merchants to still "do  
business."
